for a sustainable career in the arts

# ABOUT THE SUMMER TRAINING

- When: 15-18 JULY 2025
- Where: MUNICH, GERMANY
- Application Deadline: 31 MAY 2025
- Language: ENGLISH
- Fee: 300 EUR

## A UNIQUE PROGRAMME FOR EMERGING ARTISTS.

4-days of intensive training,  
**workshops, face-to-face meetings**  
and **personalised feedback**, this  
programme gives you the possibility  
of creating a **strong network** and  
integrating **sustainable strategies in**  
**your artistic practice.**

The **Summer Training for Artists**,  
developed by The Artist and  
the Others, provides concrete  
knowledge, essential skills, and real-  
life connections in order for you to  
extend your network. It is a **unique**  
**opportunity to build a professional**  
**backbone for a career in the arts.**

Recently graduated artists, and those  
who are at the beginning of their  
artistic career, can easily fall into a so-  
called "black hole". It is a precarious  
period, **leading 90% of graduated**  
**artists to abandon their artistic**  
**careers.**

## LET'S ADDRESS THE PROBLEM.

The cause is a lack of knowledge  
about the dynamics of the art world,  
practical skills and professional  
connections. This training programme  
offers artists an extensive range  
of tools, concrete knowledge,  
essential skills & real-life networking  
opportunities, **increasing confidence**  
**by building a strong professional**  
**backbone for a sustainable,**  
**long-lasting career in the arts.**

# WHAT DOES THE PROGRAMME COVER?

## WHAT DOES IT INCLUDE?

The 2025, newly updated 6th edition of the training programme includes **more than 30 hours of professional hands-on workshops, presentations, discussions, visits to cultural spaces & interactive activities.**

Each participant will receive a **toolkit** in advance, including a detailed description of the content of the programme, relevant information, and useful links which can be used and referred back to at any stage of their careers.

Held in Munich, a city known for its dynamic cultural landscape, the training **offers participants the opportunity to immerse themselves in a fresh art world.**

### IMPORTANT NOTE

The critical topics taught in this programme are **not** included in the curricula of (most) Art Academies **but they are essential for an artistic career.**

## CENTRAL TOPICS

→ How to navigate the artworld(s).

→ Reflecting on how to develop a sustainable practice (meeting with galleries, off spaces, curators and other artists).

→ How to select residencies, exhibitions and grants applications (including a section for parent-artists).

→ Building a meaningful portfolio & clear artist statement.

→ How to introduce **Care** within your practice and projects.

**The program provides concrete practical skills bridging the gap between art education and the professional world, empowering artists to navigate their careers with confidence.**

## WHAT IS THE FOCUS?

This Summer Training **specifically addresses the obstacles that artists face at the start of their careers.**

## AS A PARTICIPATING ARTIST YOU WILL GET:

→ Tailored feedback, based on your artistic practice;

→ Face to face meetings with gallerists, curators and art workers with many years of experience;

→ Personalised feedback on your artist statement, portfolio, and artist residency applications;

→ Live meetings with local & international professionals from the field;

→ **Extra PORTFOLIO NIGHT:**

in September/October, where participants will present their final, revised portfolio (either in person or online, TBC) to different experts, gallerists, curators, and art workers who will provide individual feedback and advice.

→ Once completed, participants have **2 extra hours** of **INDIVIDUAL COACHING** (to be used in the 12 months after completing the programme) which can support you in further developing your artistic career.

## WHAT MAKES THE SUMMER TRAINING OFFER UNIQUE?

Via **real-life connections and highly interactive activities**, the Summer Training offers **individualised feedback and advice, allowing participants to receive guidance specific to their artistic journey.**

You will have the chance to **participate actively, ask experts questions, receive answers & engage with other artists and professionals.**

In this way, we facilitate **direct connections with gallerists, curators, and other art professionals, fostering a supportive network that can lead to meaningful collaborations and opportunities.**

## A HOLISTIC APPROACH TO SUSTAINABLE ARTISTIC PRACTICES

While many programs focus on technical skills or professional networking, this programme emphasises the importance of **integrating self-care and sustainable strategies** into artistic practices. This approach addresses the **emotional and physical well-being of artists, acknowledging the challenges of freelancing and the need for resilience in the art world.**

# WHAT DO OUR ALUMNI SAY?

*"It was some kind of emancipation as an artist to really understand that an artist's work is valuable; I learned so much about presentation, proposals, budgets, residencies, galleries and off-spaces... It was really great. I think my proposals will definitely get better and improve my chances to get one [a residency]."*

(participant 2021)

*"Changes your mindset, gives you tools for action, helps you understand how to proceed and why, gives you awareness and confidence. Motivation and energy to continue working without fear."*

(participant, 2023)

*"I feel very encouraged and energized to proceed with my path. I've got very important insights and feel much more confident when it comes to applications and presenting my work. It was so great to meet all the other artists and the team!! It's very nice knowing that I'm not the only artist in Munich struggling to find their way. Also, it was very inspiring feeling all the energy and hear about their practises and ideas. During the summer training I figured out where I want to set my focus and feel deeply inspired to go on."*

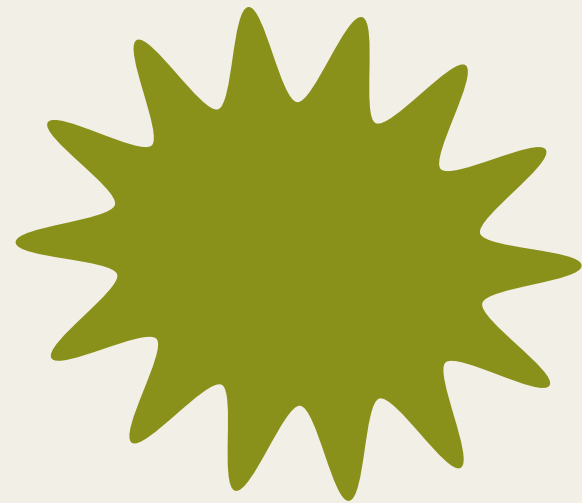

(participant 2023)

*"An amazing experience. Super enlightening and useful. I got to meet fascinating people that will be part of my life from now. It was very special and something I won't forget. It was a present."*

# ABOUT US

## THE ARTIST AND THE OTHERS

The Artist and the Others is a non-profit foundation which bases all activities on the understanding that the arts are important for our society, and awareness of the benefits of shared knowledge. The foundation, initiated in 2013, supports artists and cultural professionals in building their careers in the cultural field. Our goal is to overcome the difficulties that artists and cultural professionals encounter in the first years after their studies, a critical period when they need to establish connections, and develop the knowledge and necessary skills to boost their future careers. The Summer Training was first developed in 2019, since then we have seen the positive impact that this training has had on participating artists.
